

# The Imperial Lawyer in Chief

This will come to no surprise to anyone who has followed [GLOOG.us](http://GLOOG.us). We have for years been exposing the reality that America is no longer a land of laws but is now [The Land of Lawyers](#). The difference however since Obama took over as [Lawyer-In-Chief](#) is that they no longer even try to camouflage the fact they now have total control over America.

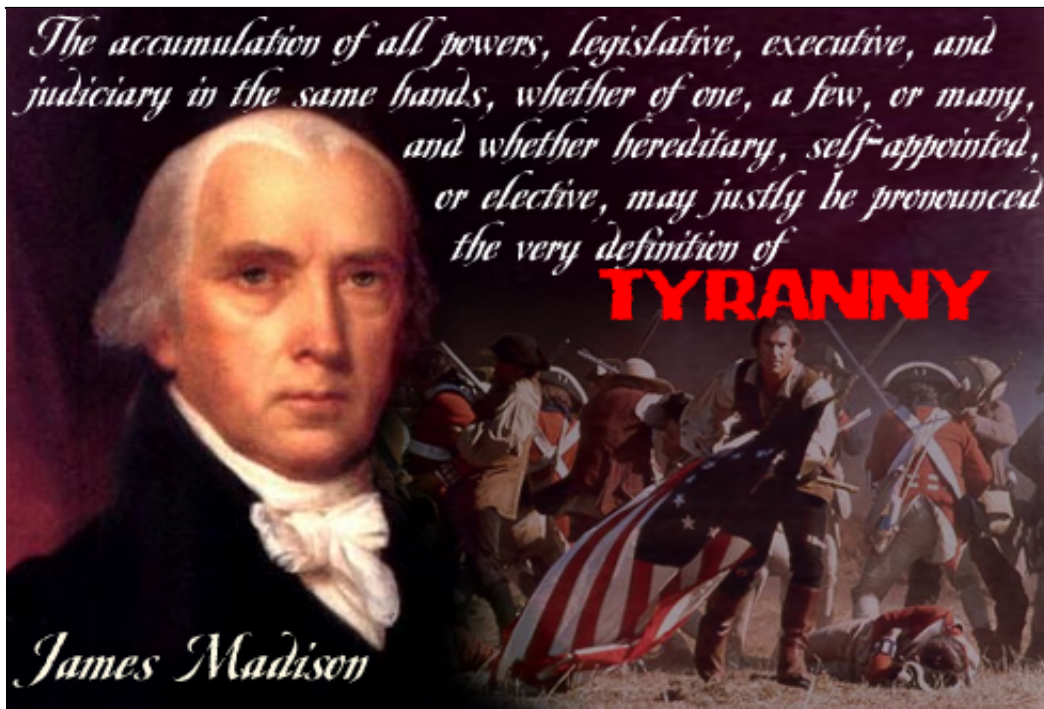

There has been a silent coup for the last 50 years that has transformed America from a Republic to an Oligarchy.

In 1950, Washington D.C. had 1000 lawyers. In 1975 it had 11,000. By the mid-1990s, the number of lawyers had ballooned to approximately 65,000. By December 2009, the estimate had grown to 80,000 representing over 15% of the entire population of Washington D.C. and occupying about 85% of the highest offices and positions in ALL three branches of the federal government. - **The Taking of American**

And the American people have enabled it by going to the poles and voting lawyers into office even though these people have little if any qualifications for the jobs at hand. The lawyer class has been totally inept at running America as is evident by their performance and the record:

- 17 TRILLION DOLLARS IN DEBT
- The Jude-Christian Foundation, the rock upon which America's success was built, is being destroyed
- The American ethic and the culture is being decimated
- America's world standing is becoming a joke, even in America!
- America's mighty military cannot win a war under the thumb of lawyers dictating "Rules of Engagement" which gives the advantage to the enemy!
- America's middle class and businesses dwindle away under the avalanche of laws and regulations which serve only to line the lawyers pockets.
- Judges or lawyers in black robes, now overrule the vote of the people in case after case thus usurping the power and the right of the citizens.
- Our best and brightest come home in body bags as politicians/lawyers dine over white linen tablecloths; writing, modifying, and re-modifying these lethal rules. Rules that favor the enemy rather than the American soldier. Rules so absurd they're difficult to believe until you hear the same stories over and over again from those returning from battle.
- Their tyrannical rule and interference in the freedoms of Americans has all but eliminated America's most precious resource and the backbone of America's success: the American Spirit...

Many years ago a very wise man warned of this happening. Too bad more people know about Miley Cyrus than they do about James Madison:

## On Imperial Obama: He Is The President Nixon Always Wanted To Be

Posted on Feb 15, 2014 by Caleb Howe

At one point in the above clip, Megyn Kelly goes through a breathtaking list of examples of the overreach of the Obama executive. Twenty-eight executive actions on Obamacare, controversial actions on immigration, jumped into a civil war in Libya without Congressional approval, allowing doctors to ask patients if they own guns, drone strikes on American citizens. As Kelly says, the list goes on. Every one of these are things that the elites in the media would, and should, have gone apoplectic over were a Republican in office. Remember how they called it Bush's war? Remember how they called Bush and Cheney war criminals? But Obama slips them right in with barely a murmur of objection. And those who do are treated as fringe. These are the rules under Obama.

To paraphrase what Charles Krauthammer recently said, to President Obama,

'the laws of the United States are whatever he thinks they are. Whatever he wants them to be. What's in his head becomes reality, regardless of what congress or the American people have to say about it.'

Mark Levin referred to him on Twitter today as "The Imperial President." For which outrage he is certain to be labeled racist. And if you say the word impeachment you are destined for the fever swamp. ...
